

AA011-AA011T-AA012M-AA012T-AA014T-AA017T-
AA019T-AA012 TRILOCK-AA014 TRILOCK-AA111-AA090

Carabiner AA011 (without bag) and AA011B (with bag).

AA011 / AA011B

Features:

- Material: Zinc-plated steel
- Locking: Manual (screw-lock)
- Opening: Ø19 mm
- Weight: 169 g
- Breaking strength: 25 kN
- AA011B includes serial number and is supplied in an individual bag
- Complies with EN 362 (Connectors)
- CE Certified

Carabiner AA011T

AA011T

Features:

- Material: Zinc-plated steel
- Locking: Automatic (twist-lock)
- Opening: Ø21 mm
- Weight: 220 g
- Breaking strength: 22.2 kN
- Includes serial number and is supplied in an individual bag
- Complies with EN 362 (Connectors)
- CE Certified

Carabiner AA012M

AA012M

Features:

- Material: Aluminium
- Locking: Manual (screw-lock)
- Opening: Ø18 mm
- Weight: 76 g
- Breaking strength: 23 kN
- Includes serial number and is supplied in an individual bag
- Complies with EN 362 (Connectors)
- CE Certified

AA011-AA011T-AA012M-AA012T-AA014T-AA017T-
 AA019T-AA012 TRILOCK-AA014 TRILOCK-AA111-AA090

Carabiner AA012T

AA012T

Features:

- Material: Aluminium
- Locking: Automatic (twist-lock)
- Opening: Ø18 mm
- Weight: 90 g
- Breaking strength: 25 kN
- Includes serial number and is supplied in an individual bag
- Complies with EN 362 (Connectors)
- CE Certified

Carabiner AA014T

AA014T

Features:

- Material: Aluminium
- Locking: Automatic (twist-lock)
- Opening: Ø24 mm
- Weight: 98 g
- Breaking strength: 20 kN
- Complies with EN 362 (Connectors)
- CE Certified

Carabiner AA017T

AA017T

Features:

- Material: Galvanized steel
- Locking: Automatic (twist-lock)
- Opening: Ø25 mm
- Weight: 209 g
- Breaking strength: 20 kN
- Complies with EN 362 (Connectors)
- CE Certified

AA011-AA011T-AA012M-AA012T-AA014T-AA017T-
AA019T-AA012 TRILOCK-AA014 TRILOCK-AA111-AA090

Carabiner AA019T

AA019T

Features:

- Material: Aluminium
- Locking: Automatic (twist-lock)
- Opening: Ø27 mm
- Weight: 90 g
- Breaking strength: 20 kN
- Complies with EN 362 (Connectors)
- CE Certified

Carabiner AA012 TRILOCK

AA012 TRILOCK

Features:

- Material: Aluminium alloy
- Locking: Automatic (triple-lock)
- Opening: Ø19 mm
- Weight: 82 g
- Breaking strength: 25 kN
- Includes serial number and is supplied in an individual bag
- Complies with EN 362 (Connectors)
- CE Certified

Carabiner AA014 TRILOCK

AA014 TRILOCK

Features:

- Material: Aluminium alloy
- Locking: Automatic (triple-lock)
- Opening: Ø22 mm
- Weight: 83 g
- Breaking strength: 30 kN
- Includes serial number and is supplied in an individual bag
- Complies with EN 362 (Connectors)
- CE Certified

 AA019T-AA012 TRILOCK-AA014 TRILOCK-AA111-AA090

Carabiner AA0111

AA0111

Features:

- Material: Aluminium
- Locking: Automatic (twist-lock)
- Opening: Ø44 mm
- Weight: 205 g
- Breaking strength: 20 kN
- Complies with EN 362 (Connectors)
- CE Certified

Maillon AA090

AA090

Features:

- Material: Stainless steel
- Locking: Manual (screw-lock)
- Opening: Ø10 mm
- Weight: 133 g
- Breaking strength: 35 kN
- Complies with EN 362 (Connectors)
- CE Certified
