

### TECHNICAL INFORMATION

Retractable steel cable lifeline with plastic housing. This new model (ANR250HV) is lighter than its predecessor and represents an improvement over its counterpart (ANR200V), as it is designed for vertical and horizontal use.

The device features a fall-absorbing system near the hook and requires no additional equipment for horizontal use.

In addition to the fixed handle, the ANR250HV retractable lifeline features a rotating head in the housing, also fitted with an AA011 threaded steel carabiner (19 mm opening).

It is supplied with a 24 mm opening hook with a built-in fall indicator and a lanyard (cordino) to facilitate connection to the harness when the user cannot reach the retractable lifeline.

### Features:

- Cable lengths available: 6 meters (ANR250HV-06B) or 10 meters (ANR250HV-10B).
- Plastic housing.
- Galvanized steel cable.
- Cable diameter: Ø 4.8 mm.
- **6 m** lifeline weight: **4.15 kg.**
- **10 m** lifeline weight: **4.55 kg.**
- Dimensions: 900 x 160 x 89 mm.
- Maximum user weight: **100 kg.**
- Complies with **EN 360** standard for retractable lifelines.
- CE certified.
